Md. Abdul Nayeem, Training coordinator of Electrical Division KG MECH, Hyderabad has conducted a training session on **Electrical CAD** for III Year EEE Students. He has explained different aspects of Electrical CAD. The training was intended to make students aware of designing electrical equipments and electronic products, from microchips & computers to electric power networks and any other products that process information and transmit energy.

Training Outcomes:

- Electrical CAD software can automate all design tasks and facilitate drafting productivity.
- Engineers can create electrical schematic, control circuit diagrams, and documentation using industry specific electrical soft tool.
- Training of Electrical CAD.

Mr. G. Naresh, Assistant Professor of ECE Department conducted a training session on basics of E-CAD TOOLS for IV Year ECE branch. He has given layouts Designing of simple schematic of CMOS, NMOS, and PMOS families etc.

Training Outcomes:

- Design Entry & simulation of multiplexer circuit with test bench & functional verifications.
- Generation of configuration/fuse files for 4:1 multiplexer & D flip-flop & implementation of the hardware using FPGA.
- Design a schematic and simple layout for CMOS Inverter, parasitic extract.
- Synthesis, P&R simulation for Full adder, Concepts of FPGA floor plan, critical path, design gate count, I/O configuration and pin assignments.

Mr. K. Balakrishna, Training coordinator of EEE Department conducted training a Session on **Basics Electrical Simulation** for III Year EEE Branch. He has given an Introduction about **Basics Electrical Simulation**.

Course Objectives:

- To develop the simulation skills.
- To generate various signals and synthesis for the engineering systems.
- To analyze harmonics in the systems.
- To analyze electrical circuit in simulation environment.

Training Outcomes:

After going through this lab the student will be able to apply signal generation in different systems.

- Analyze networks by various techniques
- Analyze circuit responses
- Analyze bridge rectifiers

Dr. G. Raj Kumar, Associate Professor of CSE Department conducted training on basics of Micro soft Office for I Year students of all branches. He has given a brief of different functions of MS Word, MS Excel and MS Power Point Operating. The training was intended to make students aware of certain file systems of Microsoft Office.

Training Outcomes:

- Recognize when to use each of the Microsoft Office programs to create professional and academic documents.
- Use Microsoft Office programs to create personal, academic and business documents following current professional and/or industry standards.
- Apply skills and concepts for basic use of computer hardware, software, networks, and the Internet in the workplace and in future coursework as identified by the internationally accepted Internet and Computing Core (IC3) standards.

AUTO CAD TOOLS ON 2/9/2016

Number of Students Benefited: 72

Trainer: Ms. V. Sowjanya

Venue: S-313

Ms. V. Sowjanya, Assistant Professor of CIVIL Department conducted a training session on basics of AUTO CAD TOOLS for IV Year CIVIL & MECHANICAL branch. She has Introduced AutoCAD software as a design and drafting tool for architecture and interior design.

Course Content

This course will be presented by means of short lecture/discussion sessions and laboratory projects. Individualized instruction will be provided while the student is working on assigned projects.

- Design students must be able to visualize and graphically reproduce complex layouts to succeed in subsequent drafting and design courses.
- Designers need to be able to communicate with each other, and with manufacturing and construction personnel using graphical representations of physical objects.
- AutoCAD design software is widely used in the Architectural Design and Drafting professions.
- Many Architectural Design and Drafting graduates enter the workplace by performing computerized graphics manipulations

Training Outcomes:

At the end of this session student will be able to know:

- Create, annotate, edit and plot drawings using basic AutoCAD commands and features.
- Apply basic AutoCAD skills to intermediate AutoCAD course and other design and drafting courses.

ICT/COMPUTING SKILLS

MICROSOFT OFFICE BASICS ON 30/09/2015

Number of Students Benefited: 78

Trainer: Mr. M. Narendhar

Venue: Venue: S-109 C&DS LAB-7

Mr. M. Narendhar, Assistant Professor of CSE Department conducted a training session on Basics of Microsoft Office for I Year CSE students. He has given a brief of different functions of MS Word, MS Excel, and MS Power Point Operating. The training was intended to make students aware of certain file systems of Microsoft Office.

Training Outcomes:

- Recognize when to use each of the Microsoft Office programs to create professional and academic documents.
- Use Microsoft Office programs to create personal, academic and business documents following current professional and/or industry standards.
- Apply skills and concepts for basic use of computer hardware, software, networks, and the Internet in the workplace and in future coursework as identified by the internationally accepted Internet and Computing Core (IC3) standards.
