ENTERPRISE RESOURCE PLANNING SOFTWARE(ERP)

The ERP software for our institution helps us to manage an entire institution, from admissions to assessments of the students. The ERP modules organize all the details to provide a proper list for a smooth workflow of an institution. With this we can manage all the details of the students; about their contact information, grades, assessment, fees, course, and every major or minute detail.

13. Placements and Achievements
14. Examination Management
15. Inventory Management
16. Grievance
17. Feedback

ADMINISTRATION

MODULES IN DETAIL

1) ADMIN MODULE

Admin module plays a vital role Admin module helps to ERP administration for efficient management of human resources. Admin module helps to manage faculty and students information, track their records like performance reviews, designations, time & attendance tracking. Admin functionalities are

- Staff/Student Entry, Role Configuration
- Role wise, User wise access rights
- Deactivate users
- User login history
- Manage passwords
- Can update college information like adding infrastructure details etc
- Can update academics information like adding courses etc.

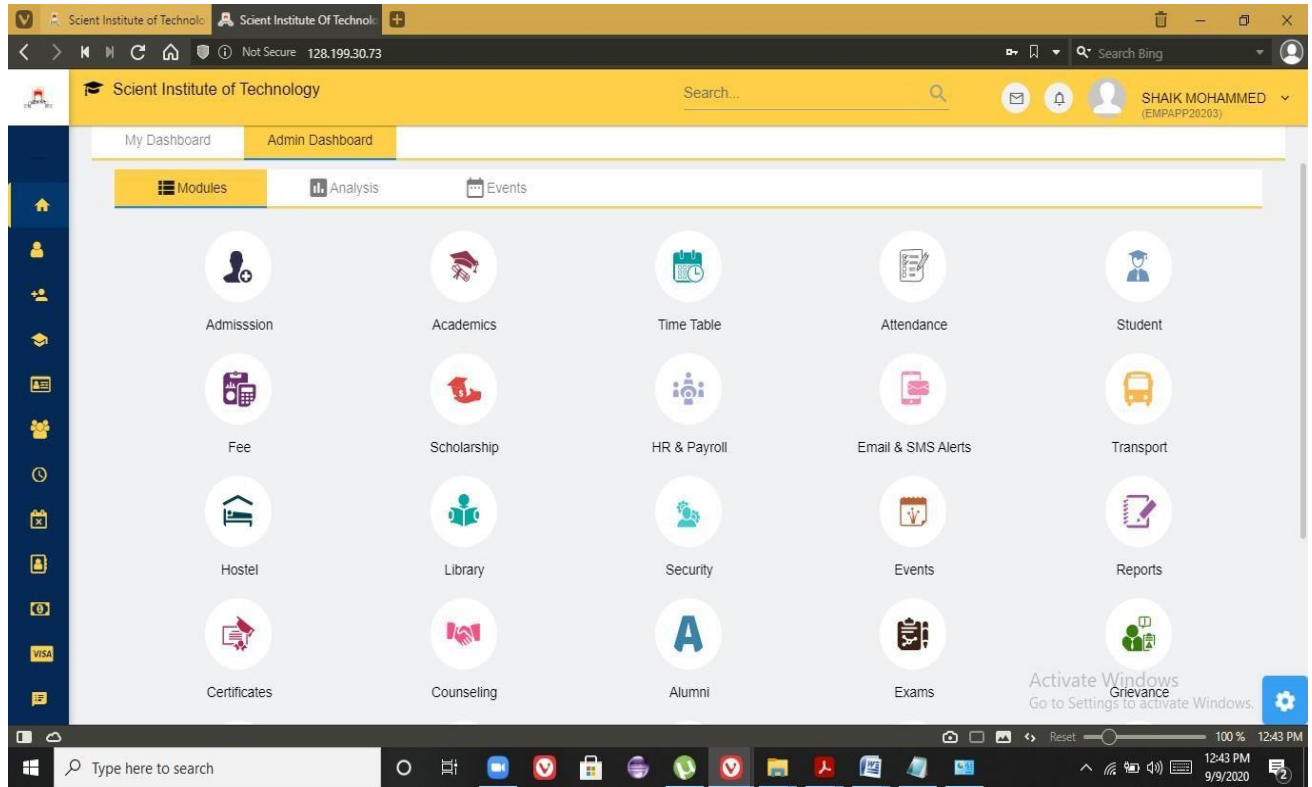

Fig 1 : Admin Dashboard

3) ACADEMICS

In this module faculty can create courses. This module helps the institute to schedule the course online and let the students benefit through the online programming of the course. The ERP module of course scheduling creates a schedule of the courses for each team, class, or batch and enroll students in the programs and the groups with their preferred course. Faculties can publish digital timetable to the students. Operations to be performed are:

- Regulations
- Subject master
- University curriculum
- Assign Course year subjects
- View course year subjects
- Staff subject mapping
- Staff subject unmapping
- Assign subject books
- Subject unit topics
- Subject syllabus plan
- Elective group mapping
- Student enrollment to Elective subject
- Assign regulation to students
- Assign students to section
- Assign students to lab batches
- Allocate student subjects

9) SCHOLARSHIP MANAGEMENT

This module stores all the types of scholarships, and the list of all the students who have applied for scholarship. Scholarships are applied by college on behalf of the students, which are sanctioned by government and trusts. Each and every student scholarship details are monitored by administrative officer in very ease mode since they have all details of applied student in very proper arranged manner. Functionalities in this module are

- Scholarship application
- Scholarship proceedings
- Account proceedings

The screenshot displays the Scholarship Management interface. A sidebar on the left contains navigation options: Home, Scholarship Management (selected), Scholarship Application, Scholarship Proceedings, and Accounts Proceedings. The main content area shows a table of scholarship applications for the academic year 2020-2021. The table has columns for Roll Number, Applicant Name, Course, Applied On, Scholarship Amt, Received Amt, Due Amt, Status, and Actions. One application is listed for Chandra Shekar Reddy, with a scholarship amount of 35000 and a status of Active. A '+ Apply Scholarship' button is visible above the table.

STUDENT ADMISSION AND SUPPORT

2) ADMISSIONS

The admission module in our software creates admission criteria and conducts admission procedure online through a portal. The institute works with ease through the online admission process and avoids any loss of data because of manual admission of students. The online admission will only benefit the institute to keep a list on the inventory of the student details in hand, with you is getting admitted and who is leaving the institute; at whichever point of time. The functionalities in admission modules are New Enquiries to admission, List of Enquiries, Application form.

The screenshot displays a web browser window with the URL '128.199.30.73'. The page title is 'Add-Enquiry-Form'. The interface includes a navigation menu on the left with options: Home, Admission, Enquiries (with sub-options: New Enquires, Enquiry List, Sold And Held Enquiries), and Application Form. The main form area contains the following fields:

- Mode Of Enquiry *
- Organization *
- College *
- Candidate Name *
- How did you know about us? (dropdown)
- Source Group
- Counseled By
- Candidate Return Date: 09/09/2020
- Country (dropdown)
- State (dropdown)
- Result Status (dropdown)
- Enquiry Status (dropdown)
- Qualification (dropdown)
- Gender: Male Female
- Percentage (%)
- Eamcet Rank

4) STUDENT INFORMATION SYSTEM

In this module we can extract the details of students. Using this module we can add student details, List of students detained and promoted, Passedout students information, subjects allotted to the students. Admin can generate the roll num of a student. Operations performed in this module are:

- Student Details
- Student promotions
- Students Detain
- Student Re-Admission
- Student Discontinue
- Generate Student Roll No
- Student Subjects

9) SCHOLARSHIP MANAGEMENT

This module stores all the types of scholarships, and the list of all the students who have applied for scholarship. Scholarships are applied by college on behalf of the students, which are sanctioned by government and trusts. Each and every student scholarship details are monitored by administrative officer in very ease mode since they have all details of applied student in very proper arranged manner. Functionalities in this module are

- Scholarship application
- Scholarship proceedings
- Account proceedings

10) LIBRARY MANAGEMENT

This module is designed and developed to provide a refined and the best of solution which aims at bringing in Quality in Management of books, journal, article, newspapers, charts, reports etc. It focuses on excellent coordination between Library and students making e-library management system. This module provides, online integrated information of Students to the Library administrators, thus enabling smooth connectivity with powerful security and privacy features. Library ERP provides, online integrated information of Students to the Library administrators, thus enabling smooth connectivity with powerful security and privacy features.

11)TRANSPORT MANAGEMENT

Transportation management module comprehensively handles the complete transportation process and ensures systematized, timely and safe transportation facilities for its students. With modules for allocation of vehicle to a particular route, setting up fees based on the criteria like distance/ area.Operations performed in this module are:

- Transport details
- Add Vehicle
- Add driver
- Add helper
- Transport distance fees
- Add route
- Map Vehicle Driver
- Map Vehicle Route
- Transport Allocation

BENEFITS OF ECAP

Library of Scient institute of technology is automated by Integrated Library Management System (ILMS). ECAP stands for Engineering College Automation Package. It is designed and developed by Webpros Solutions Pvt. Ltd., Visakhapatnam. ECAP aims at immediate availability of data in required formats to ease the work of staff and management and increase in transparency and accountability in administration. This software is exclusively used for our institution library

14) EXAMINATION MANAGEMENT

This module is an important task for the evaluation of student abilities and performance. It includes all the process like examination setup, examination marks entry. We can maintain all the details of internal/external exams, theory/practical test, teacher wise internal assessment and we will get automatic result and print marks sheets. Using this module student exam attendance reports, marks memo report etc can be generated. Operations performed using this module are:

- Exam masters
- Pre Examination
- Post Examination
- Exam reports
