### **Event Description:**

A Five Days FDP on Recent Innovations in CIVIL Engineering was organized by Civil Department of SCIENT Institute of Technology.

About FDP the objective of FDP is to provide updated knowledge in the recent advancement in civil engineering. The experts from diverse streams of civil engineering will throw some light on the topics. The knowledge on how to bridge the gap between industrial and academic practice. The ethical norms to be followed in the profession and many more.

### **Objective:**

- To provide a platform for the faculties to update their knowledge from experts.
- To deliver the contents beyond syllabus effectively to the students.
- To interact with the subject experts and sharpen their knowledge in their respective field.

### **Topics:**

- Earthquake Disaster and Mitigation,
- Reliability Engineering, Conceptual Rights,
- Professional Ethics for an Engineer,
- Water Resource Management Using Geo-Spatial Application, Reverse Engineering,
- Green Campus to Combat Global Warming and

### **Event Description:**

Programming is a fundamental course that is taught to every computer science during their semesters. After a careful examination of current curriculum and market demands, we have selected C, C++, Java, Pascal, GW Basic and JavaScript ASP, Dot Net for comparison.

As part of this initiative, a Faculty Development Program (FDP) on recent advancements in Programming Languages and Environments for Scientists and Engineers are intended to give rigorous training on Environments of Programming who are extensively involved in interdisciplinary research activities. The six days program will deal with application of modern tools and techniques using in Programming frameworks to the problems arising from different areas of applied sciences and Engineering.

### **Details of Resource Person:**

Nithin. N is a Technical Trainer and Founder of Outstanding20, training company located at Mysore, Karnataka his objective is to deliver world class training that equips trainees with knowledge and intelligence that would suffice the competition of international standards.

He has 14 years of industry experience. Currently working as a Corporate Technical Trainer and he is an expert in CRT, FDP, Java-Oracle Certification training and Induction training , Content Developer – PPTs, Demos, MCSR and MCMR questions. He is Strong in programming languages like Java, C & C++, Python, DS and Algorithms and Java Full Stack. Over 250 corporate Programs were delivered across India. ### **Event Description:**

A One Week FDP on Environmental Management and Smart Cities from 7<sup>th</sup> to 12<sup>th</sup> Dec, 2015 at SCIENT Institute of Technology, organized by Department of H&S for Non-Teaching Faculty. The Faculty Development Programme is inaugurated by Dr.T.Sarojini, Professor-GNIT, Dr.Moinuddin K Syed, Principal Scient Institute of Technology in A/C Seminar Hall at Scient Institute of Technology.

The objective of the Faculty Development Programme is to explore planning of smart cities, transportation in smart cities smart structures and materials, water supply, sewage treatment, solid waste management practices and development of sustainable infrastructure.

The concept of smart cities has been well explored in both research and policy practices. Government of India has already initiated various missions on smart cities, which include urban renewal and retrofitting programme.

Environmental sustainability issues are increasingly becoming the biggest challenge to the developed and developing world. In this context, the FDP will cover various aspects of smart cities.

### **Details of Resource Person:**

The Speaker of the session Dr.T.Sarojini, Professor of Chemistry, GNIT. She Obtained her P.hD in the field of Chemistry, from National Institute of Technology, Warangal. She has worked under Woman Scientist Scheme, (DST) in the Department of Chemistry, Osmania University, She has been bestowed with best faculty award in 2013, at Ashoka Institute of Engineering and Technology.

### **Event Description:**

A Five days Training Program on ERP was conducted from Department of Computer Science and Engineering of SCIENT Institute of Technology for Non-Teaching Staff from 4<sup>th</sup> Jan to 8<sup>th</sup> Jan 2016.

The No. of Non teaching Staff participated: 11

SCIENT Institute of Technology is exploring an overhaul of our legacy software systems, including the possibility of moving to an Enterprise Resource Planning (ERP) system. This very large software package would replace much of our custom-built software and would give BU modern tools to run our student records and administrative systems.

This would be a significant transformation, so we are partnering with Campus Works. They are consultants who have worked with over 100 post-secondary institutions and are noted for both their vendor independence and their high-levels of expertise and experience in the full range of ERP solutions.

### **Details of Resource Person:**

The Speaker of the Session was Ram S Jeevan Chintalapati who has 12 years of teaching and training experience in the field of education. Started career in 2004 as a freelancer to teach English Language in Pollocks & VT educational institutions in Visakhapatnam. That valuable journey continued till 2006 and ignited the passion to take up new avenues & challenges in the areas of Verbal ability, Soft Skills and corporate communication. With that idea started a training and knowledge transfer academy by name FUTURE KRAFT and achieved a great success by enhancing verbal aptitude and soft skills among corporate aspirants. In this process recruited huge number of trainees in corporate companies through direct and campus recruitment. Took a professional exit from CONDUIRA Education & Training Services in 2015 where he worked as a Regional Head for Training and Marketing.

Currently conducting training programs in various Engineering & MBA colleges on Verbal ability, soft skills, Corporate & Business communication, Voice & Accent etc.

### **Event Description:**

A Five Days FDP on Engineering Graphics and Design from 18<sup>th</sup> Jan to 22<sup>nd</sup> Jan 2016 was organized by Mechanical Engineering, SCIENT Institute of Technology. The Session was inaugurated by Dr.

No. of Participants: 27

Graphics has always been the language of Engineering and preferred media for conveyance of design ideas. This unique program is designed to provide teaching methodology of Engineering. Graphics from the first principles along with introduction to geometrical dimensioning and tolerance in design. Further FDP aims to impart basic concepts and fundamental principles of Orthographic projections as well as the topics of development of surface, isometric projections and perspective projections using computer software. The workshop is designed to provide hands on training on selected topics.

### **OBJECTIVES:**

1. To establish the need for effective method and technique in teaching Engineering graphics/Engineering graphics and Design.
2. To develop customary and smart methods of solving problems through interactive working sessions.
3. To analyze and comprehend methodology for relative and absolute evaluation and allocation of marks judicially.

### **Event Description:**

One Week FDP on Emerging Trends in VLSI design from 01<sup>st</sup> to 07<sup>th</sup> FEB, 2016 at SCIENT Institute of Technology, organized by Department of ECE. The present FDP aims to evaluate the major trends, challenges in the applications of Emerging Trends in VLSI design.

The trend in design and manufacturing of very large scale integrated circuit, an ongoing move towards smaller devices on increasing wafer dimensions. CMOS has become the prevailing technology due to its high speed and packing density coupled with low power consumption. New technologies have emerged to further increase circuit speed and to reduce design and technology constraints.

### **Details of Resource Person:**

**Dr. RAJENDRA PRASAD SOMINENI**, working as Professor in Department of Electronics and Communication Engineering at VNR&VJIET, Hyderabad, India. He received B.Tech and M. Tech. Degree from NIT WARANGAL, India, .

He obtained PhD from Indian Institute of Technology (IIT), Madras, India in 2015. He has 3 International reputed publications along with 15 International conference research papers.

He has 18 years of teaching and 4 years of research experience. His research areas include Trends in VLSI design.

**Event Description:**

In our digital world where Sensors collect Information - Information hosted in Cloud - Cloud connects Internet of Things - Internet of Things manage Machines - Machines powered by Deep Learning - and Deep Learning driving Artificial Intelligence; we will need to adapt and thrive in a future where robots and other smart devices become integral part of societies.

The next generation geospatial application is expected to come not through a single technology, but rather from linking multiple technologies together.

**Details of Resource Person:**

Dr.V Ajantha Devi, Research Head, AP3 Solutions, has more than 13 years of work experience; her areas of interest in research are Machine Learning, Deep Learning, Artificial Intelligence, Natural Language Processing, Image Processing, Speech Processing, Pattern Matching, Biometric. And teaching interests are Programming Languages, Data Structure, Design and Analysis of Algorithms, Machine Learning, Artificial Intelligence, Digital Image Processing. She has been resource person from many national and international workshops in artificial intelligence, image processing and machine learning.

### **Event Description:**

A One week FDP on Soft computing applications in power system, from 8<sup>th</sup> to 13<sup>th</sup> Feb, 2016 at SCIENT Institute of Technology, organized by Department of Electrical & Electronics Engineering . Followed by a session on Soft computing applications in power system by Dr. K Prakash.

The programme is started with welcome note by the Principal Dr.Moinuddin.K Syed followed by the lecture session.

### **During this workshop the following points were discussed:**

- Various soft computing techniques.
- Convergence characteristics of algorithms like BPA, Fuzzy and GA
- Randomness in the final output.
- Applications of above techniques to problems like ATC calculations etc.,

### **The objectives of the program are:**

1. Application of BPA, Fuzzy Logic and GA to power system problems.
2. Issues like Capacitor placement, DG placement, Load flows and Economic Load Dispatch solved using Soft computing techniques.

Outcomes of the programme:

- Gained knowledge on various Soft Computing Techniques.
- Designing and usage of better soft computing techniques for power system issues.

### **Details of Resource Person:**

The Speaker of the session was Dr. Mr. Prakash M.Tech, Ph.D (NITW). A skilled and professional educator with 20 years of experience in teaching, training and administration of college activities. He is Hard working and an effective team leader with the ability to understand the changing needs of the students & management and act accordingly. His current job and academic projects undertaken have helped harness time management, team work, team building and effective co-ordination skills.
